*Immensely experienced in transportation & infrastructure domain - Planning, coordinating & monitoring, at all India level, movement & rail infrastructure for coal, iron ore, power houses, raw materials to steel plants, finished iron & steel, food grains, fertilizers, Sugar, Cement, limestone, Dolomite, containers, port-infrastructure, RoRo Services & rail-port connectivity etc. Coordination with RDSO, RITES, IRCON, DLW, CLW & other Railway subsidiaries. Interaction with RDSO for RO-RO wagon design, ACD ( Anti Collision Device ), Sky Bus etc. development. International co-ordination including neighbouring countries (Pakistan, Bangladesh, etc.), with rich exposure of inter-ministerial liaison including at the Cabinet Secretary level. An Indian Railways Service officer ( joined IR in 1973 ) , Professionally trained in Heavy Haul Operations (Australia and USA) and IT & Management (Canada).*

*Commendation and Army Chief's Medal for organizing & monitoring the rail borne movement during Operations Brass-Tacks & IPKF (Sri Lanka). Chancellor's Gold medal for the best All Round Student at the University level. A passionate sportsman with host of other academic and extra-curricular interests and recognitions. A keen student of guest facilities & comfort audit in hospitality industry.*

*Post-retirement, as partner in consulting firm AAA Infra Consultants & Designers, have been advising various Groups & Companies on various Rail related projects & issues in India & abroad.*

*A study for encompassing adequacy & future growth potential of rail infrastructure on the Konkan Coast to Mangalore, Bellary-Hubli-Goa & Bellary-Hassan-Mangalore rail links with special emphasis on port connectivity for imported coal for steel & power plants & iron ore for export etc. Future strategies for sustainable development of transportation infrastructure in the region including the socio-economic impact of Konkan Railway.*

*To mention some of the important engagements:*

*Mormugao Port Trust, Goa on development of Rail Infrastructure.*

*For Port Connectivity & Rail Logistics, had been advising & planning for Rail Infrastructure, Rail Logistics & Port Connectivity Projects for the JSW Group Companies' National & International projects. Due Diligence & study of Trans – Kalahari, a proposed 1500 Km Rail Link from Botswana via Namibia And South Africa. Also Due Diligence & study of Kelvin Corner - Coal Mines to Port Abbot Point, a 300 Km Rail Link in Queensland, Australia .*

*Post Sep. 2011, as partner in consulting firm AAA Infra Consultants & Designers , have been advising various Groups & Companies on various Rail related projects & issues in India & abroad, namely , Zuari - Fertilisers, Tanzania Dar-el Salem Commuter Railway Line Project, Aska Group for Emergency & Safety Equipment, IRCTC's E- Ticketing Business Vertical & Cash Cards , CRISIL on Private Freight Terminals & other Projects, Iron Ore Mines & Other Rail Links etc.*

*Consultant to M/s Leena Power Tech Ltd. for Railway's Electrification, Power Sector, PPP Initiatives, Arbitration etc.*

*Consultant to UGL Australia for Driver Advisory System - GOLD & High Speed 4500 HP Loco Self - Steering Bogie Projects.*

**Brief Enumeration of Consultancy Services Undertaken Post Retirement:**

- Mormugao Port Trust, Goa on development of Rail Infrastructure.
- M/s JSW-JPL Ltd –Port connectivity & planning for Rail Infrastructure.
- M/s JSW- Steel - Rail Infrastructure- Bellary & ISPAT Steel Plants.
- M/s JSW- Steel - Bellary Steel Plant – provision of 72 km. water pipe line.
- M/s JSW- Energy – Due diligence of Trans-Kalahari, a 1500 Km proposed Rail Link from Botswana via Namibia and South Africa
- M/s JSW- Energy-Due diligence & study of Kelvin Corner - Coal Mines to Port Abbot Point - a 300 Km proposed Rail Link in Queensland, Australia .
- M/s Zuari Fertilisers – Siding for Goa Fertiliser Plant.
- M/s JSW- Energy – Rail Link & Siding for Barmer Power Plant.
- M/s AARVEE - Dar-el Salem Commuter Railway Line Project, Tanzania.
- M/s Aska Ltd.- Disaster Management, Emergency & Safety Equipment.
- M/s IRCTC's E- Ticketing Business Vertical.
- M/s Itz Cash Cards Ltd. - Railways & E- Ticketing.
- M/s Leena Power Tech Ltd. –Railways, Electrification, Power Sector, PPP Initiatives, Arbitration Etc.
- M/s CRISIL - Due diligence & study for Private Freight Terminal at Bhatanagar, advise from time to time for various Rail Infrastructure Projects.
- UGL Australia for Driver Advisory System - GOLD & High Speed 4500 HP Loco Self - Steering Bogie Projects.

## **Experience and Expertise:**

### **1. Managing Director, Konkan Railway Corporation (July 2007 - Aug. 2009) and Director (Operations and Commercial) (Aug. 2005 - June 2007):**

*As Managing Director, Konkan Railway Corporation Limited, a Public Sector Undertaking in a complex transportation domain, the key responsibilities included:*

- *To provide effective direction to the business of the Corporation encompassing Business Development, Operations, Safety, HRD, Finance, Costing, Marketing, Technical infrastructure departments (Civil, Mechanical, Electrical, Signal & Telecommunication) Projects etc.*
- *Turn around & business development with planning & keen monitoring of important commodities like iron ore for export & steel plants, coal for steel, power, fertilizer plants & other industries, limestone, food grain, fertilizer, RO-RO services etc.*
- *To liaise with Indian Railways, RDSO, RITES, IRCON, DLW, CLW & other Railway subsidiaries. Central and State Govt., various Ministries and International Organizations, industries, stakeholders, etc.*
- *To nurture business with innovative marketing and negotiation skills.*
- *To provide impetus to technologies/innovations developed in house i.e. **Anti-Collision Device**, Roll-On Roll-Off system etc. and to drive important projects under implementation i.e. Jammu & Kashmir rail link, Road Over Bridges in Jharkhand state, Udipi Power House, Dighi Port Links etc.*
- *RoRo Services*
- *Konkan Rly. was the pioneer in RoRo services in India. The payload of RoRo service was limited by the dead weight of trucks. However, wear & tear of trucks, crew fatigue & environmental concerns including carbon credit made RoRo an extremely desirable service.*
- *Initiated with military BOM wagons, KR adapted to modified BOXN wagons to accommodate more trucks. We also introduced charging on per ton basis instead of axle based loading to ensure better earnings.*

### **I. Architect of Historical Turnaround and Financial Restructuring of the Konkan Railway Corporation Limited :**

- a) While KRCL is an engineering marvel, financially it was deep into red owing to the financing model adopted for the project and subsequent non- materialisation of envisaged freight traffic. As such the financial restructuring of the Company and intensive freight marketing to augment revenue were identified as mission areas after joining as Director (Operations & Commercial).

- b) KRCL's strengths of being shortest and quickest physical route were leveraged for encouraging traffic on its system and consequent decongestion of various trunk routes on Indian Railways created a win-win situation both for KRCL and Indian Railways.
- c) With the persistent efforts the Freight Traffic earnings soared from Rs.87 crores (US \$17.4 million) in 2004-05 to Rs.309 crores (US \$61.8 million) in 2008-09, **a growth of 252% (37% CAGR).**
- d) Similarly, the operating surplus jumped to over 200 crores (US \$40 million) with a healthy operating ratio of 72.5% in 2007-08 against Indian Railway's 76%. The operating ratio has only marginally increased to 79% in 2008-09, despite the global slowdown and increased payout for wages recommended by sixth pay commission. On Indian Railways under similar circumstances the operating ratio has deteriorated from 76% to about 90% for the year 2008-09.
- e) The positive turbo-charged growth in freight operations laid the foundation and created requisite conducive environment for comprehensive financial restructuring. The process initiated, in early 2006, and concurred by the Ministry of Railways was critically examined by the Board of Restructuring of Public Sector Enterprises (BRPSE) and finally approved by the CCEA (Cabinet Committee on Economic Affairs) in December 2008. The mainstays of the financial restructuring entailed converting the existing loans to the tune of Rs.3000 crores, provided by the Ministry of Railways, into non-cumulative redeemable preferential shares,—financial support by Indian Railways for next three years to take care of 50% of bonds redemption liabilities and interest accruing on these bonds to be converted into non-cumulative preferential shares.
- f) This financial restructuring has enabled KRCL to become a profitable PSU and turn it into a positive Net Worth Company with debt equity ratio of less than one. This will also herald a new era wherein KRCL can bid for new projects within India and overseas.

## **II. Human Resource Development :**

With deployment of various innovations, multi-skilling and modern technologies, it was possible to work effectively and efficiently with just half of the requirement of human resource as compared to the Indian Railways and KRCL **is now being cited as a model for new projects.**

## **III. Project Management :**

### **i. Jammu & Kashmir Rail link Project:**

- Planned and mobilized resources for the construction of 73 km segment of the prestigious Udhampur-Srinagar-Baramulla Rail Link (USBRL) project at an estimated cost of INR 6700 cr. (US\$ 1.34 Billion) including numerous tunnels and highest rail bridge across river Chenab and the bridge across Anji Khad.

**ii. Anti Collision Device Technology (ACD):**

- Keenly associated in nurturing the development and implementation of ACD technology to prevent rail collisions which no other technology in the world offers. Successfully implemented on North Frontier Railway and poised for proliferation over Indian Railways in Co-ordination with RDSO .

**iii. Jharkhand Project:**

- Successfully accomplished construction of 14 ROB's at an estimated cost of 163 crores (US\$ 32.6 million), where integral design of structure and reinforced earth retaining walls were deployed for the first time in Jharkhand state.

**2. Divisional Railway Manager, Central Railway, Nagpur – 2001-03:**

- As Divisional Railway Manager, Nagpur division (Central Railway), spread over 510 km.
- Coordinated with three Zonal Railways i.e. Southern Central, South Eastern and North Central Railways, involving heavy freight movement and a host of North-South Mail Express trains.
- A leader of multi-disciplinary team consisting of over 17,000 employees and 70 managers, effectively directed and coordinated human resource, Finance, Costing, Industrial relations, mechanized track maintenance, Operations, including coal loading from Western India Coal Fields, Pen etc, Marketing, Safety, Traffic Planning, customer care, public relations etc.
- Close interaction and co-ordination with industries, Government departments, Press and Media, Elected Representatives and other stakeholders.
- **Some of the key achievements during this period:**
  - Highest ever revenue of about Rs.1200 Cr. Recorded during 2001-2002 (50% increase over previous year) with best ever Divisional Financial Efficiency Index of 0.34.
  - Approach to Catch Sidings on Nagpur-Itarsi Ghat section, 15 KMPH speed restrictions were rationalized and raised to 30 kmph leading to generation of additional line capacity of about 20%.

- Remodelled the Nagpur Yard plan practically doubling the facilities without any additional fiscal implications.

### **3. Challenging responsibilities in the hierarchy:**

Acquired crucial experience in the core areas of Railway functioning – namely, traffic planning, freight operations, commercial, suburban and passenger services, customer care and marketing in various capacities as Chief Traffic Planning Manager, Chief Freight Traffic Manager, Chief Area Manager/Delhi, Chief Passenger Traffic Manager, Chief Commercial Manager/Freight Marketing/Northern Railway etc.

#### **A. Freight Services**

- Managed Railway's Freight Operations at all India level, covering Eastern, Northern, Central, Western, Southern sectors as Executive Director (Traffic) in Railway Board, & Chief Freight Traffic Manager, Northern Railway and earned varied experience in Planning, Coordinating and Monitoring of traffic streams at national and international levels including coordination with Production and Consuming centers, Ports, Industries etc. with special emphasis on movement of coal, iron ore, raw materials to steel plants, food grains, fertilizers, Sugar, Cement, finished iron & steel, limestone, Dolomite, containers etc.

#### **B. Infrastructure Planning**

- As Chief Traffic Planning Manager/Northern Railway, Divisional Railway Manager/Nagpur and MD/KRCL, rich experience in Infrastructure Planning – for Freight Handling Canters, RO-RO wagon Development, ACD ( *Anti Collision Device* ), *Sky Bus* etc. with RDSO, line capacity augmentation, Port Complexes and Connectivity, Power Houses, Steel Plants etc.
- As Executive Director/Traffic Transportation, Railway Board coordinated and planned movement and storage facilities, on an all India basis for steel, iron ore, foodgrains, sugar, fertilizers etc., in close coordination with the Ministries of Coal, Iron & Steel, Shipping, Surface transport, Food and Civil Supplies, Food Corporation of India, Central Warehousing Corporation etc.
- Deeply involved right from the conceptual stage for planning of rail connectivity for Dighi Port Complex, Udipi Power Plant facilities including coal handling at Mangalore Port, handling facilities for Kudhremukh Iron Ore Company Limited, Tata Metaliks, Belekeri Port etc.
- Increasing line capacity on Nagpur – Itarsi Ghat section, Yard remodeling works etc., in various capacities.

#### **C. Experience in Traffic Planning, Suburban & Passenger Services & Maintenance on Indian Railways:**

- As Chief Passenger Traffic Manager and Chief Area Manager, Delhi on Northern Railway was associated with traffic planning, operations, time-tabling/scheduling, punctuality, etc., for the suburban passenger services in the National Capital Region (NCR), handling over 100,000 (one hundred thousand) passengers and about 100 passenger trains per day. This also included planning and monitoring of passenger amenities/works, redressal of customer grievances, etc. NCR included important Delhi, New Delhi passenger terminuses. Areas of operations included planning and provision of infrastructure maintenance blocks, periodical maintenance of rolling stock etc.

#### **D. Experience In Costing Etc.**

. As Executive Director Statistics & Economics , Railway Board had rich experience in various costing exercises pertaining to railways .

#### **4. Inter-Ministerial Coordination and Liaison with International Agencies:**

##### **i. Railway Board - Ministry of Railways :**

##### **a. As Director Traffic - 1988–91, Executive Director (Traffic) & (Statistics & Economics) – 1994 - 99:**

- Represented Railway Ministry in weekly '**Monitoring of Prices' meetings, chaired by the Cabinet Secretary. Interacted and maintained close coordination with Ministries of Coal, Iron Ore & Steel, Food, Fertilizer, Home, Surface Transport, Commerce, External Affairs, etc.** and also with Zonal Railways, various state governments, industries et al.
- Functioned as Special Monitor for movement of essential commodities to the sensitive North-Eastern region.
- **Dealt with ADB (Asian Development Bank) sponsored costing exercise by Price Water House.**
- Responsible for coordination, planning, execution of defense logistics by rail for Army, Air-force and Navy.
- **Coordinated Operation Brass-Tacks, IPKF-Lanka operations and was awarded Army Chief's Medal and commendation for Rail Borne Movement 1986-88.**

##### **b. Interaction with McKinsey & Co.**

As part of the Railways' core group, interacted with McKinsey & Co. for a study of Railway working and strategies, a project sponsored by ADB.

#### **5. International Dealings and Participations:**

- As **nodal officer for Railway links frequently interacted with neighboring countries, i.e. Pakistan, Bangladesh etc., and functioned as the chief negotiator with International Delegations,**

- MEA, MOC, IB etc. and also monitored the movements and protocols.** Led a number of delegations to Pakistan and Bangladesh, SAARC etc. for bilateral/Inter Governmental meetings and negotiations.
- ii. Honoured with personal invitation by Mr. Mike Rann, Hon'ble Premier of South Australia for Business Connect Programme during Indo-Australia Business Meet, January 2008.**
  - iii. Participated as a member of the " High Level Delegation of Railway Safety" to Tel-Aviv under the leadership of Shri R. Velu, Hon'ble Minister of State for Railways to attend the Safety Conference and also made a presentation on Anti Collision Device, December 2007.**
  - iv. Successfully organized International Railway Safety Conference, in Goa in October 2007, wherein 170 delegates participated including 70 from 17 foreign countries.**
  - v. Represented India at the International Railway Safety Conference, Dublin, Ireland in October 2006.**

**Educational and Professional Background:**

- Post Graduate in Physics (Electronics) from the University of Allahabad (1971).
- Chancellor's Gold Medal for the best all round student of the University.
- Defence Services Staff College, Wellington – One year full time residential Course - 1982
- Trained in Heavy Haul Operations in Australia and USA for a World Bank Project in 1990, followed by training in Information Technology & Management in Canada in 1997
- Gold Medalist at High School Level for standing First Class First in the entire State of Uttar Pradesh.
- Recipient of National Science Talent Search Scholarship upto University Level.

**6. Memberships:**

- i. Member – Indian Institute of Rail Transport
- ii. Member – Centre for Transportation, Research and Management, Delhi

**7. Awards:**

- i. Received National Tourism Award 2007-08, Award of Excellence from Hon'ble Home Minister of Union of India for Best Tourist Friendly Station – Karmali Railway Station on Konkan Railway.
- ii. Honoured with Commendation and Army Chief's Medal.

**8. Passion:**

\* A passionate Sportsman - University Squash Champion and Captain, University Colour Holder, Tennis/Table Tennis, with keen interest in photography.

\* A keen student of guest facilities & comfort audit in hospitality industries.

**9. Social Responsibilities:**

- i. Organized polycentric knee brace camps at Nagpur, bringing relief to over one thousand people, suffering from Osteoarthritis.
- ii. Stabilized health care to the periphery through Telemedicine project.
- iii. Monitoring the comprehensive growth of child through 'Project Chaitanya' on Konkan Railway.
- iv. Actively involved in promoting education at primary level for underprivileged through various trusts and NGOs.
- v. Organised voluntary blood donation camps.
- vi. Two million trees planted along Konkan Railway.
- vii. Organised excursions/trips for children suffering from cancer in close liaison with Tata Memorial Hospital.
- viii. Enhancing skills and empowering women through Konkan Railway Women's Welfare Association activities.

**10. Annexures :**

Annexure-I : Educational/Professional qualifications.

Annexure-II: Positions held during career in Indian Railways & Konkan Railway.
